

**R E M A R K S**

Consideration of this application, as amended, is respectfully requested.

Claims 1-4 have been canceled, and new claims 5-12 have been added. The new claims were prepared by removing reference numerals and multiple dependency from the claims (as amended under PCT Article 19) and by making some minor grammatical improvements to put the claims in better form for issuance in a U.S. Patent. No new matter has been added and it is respectfully requested that the new claims be approved and entered.

In addition, the specification has been amended at page 1 to identify that this application is a U.S. National Phase Application under 35 USC 371 of International Application PCT/SE03/00267, as required by U.S. practice.

If the Examiner has any comments, questions, objections or recommendations, the Examiner is invited to telephone the undersigned at the telephone number given below for prompt action.

Respectfully submitted,
